PROFILE INFO

I have implemented responsive UI design in React, as well as HTML, and CSS. Experience with DOM manipulation with vanilla JavaScript, I have couples of projects I can share on my GitHub page. I feel ready for a front-end position, but currently learning Back-end with node.js and php.

WORK EXPERIENCE

Web developer student — Present

ccurrently working on projects I'm willing to share on my portfolio website. I have used OOP for the creation of apps as well I have used functional programming, I have used figma for wireframing the apps I have done.

Freelance Developer — 2021 - 2022

Worked as freelance for a designer in New York city, he used to sent me pdf files and I have to convert it into HTML, CSS Layout.
Fedex Delivery Driver — 2019 - present

I have work as a part-time driver for FedEx at the same time I have attended my bootcamp. currently leaning programming skills everyday.
